

CREATE INSTANT PHOTO STENCILS

AT YOUR FACILITY WITH THE

SF200 FOTOFAST STENCIL FABRICATOR

- NEED RAZOR SHARP, DURABLE STENCIL IMAGES FOR METAL MARKING AT AN AFFORDABLE PRICE?
- TIRED OF TYPING WITH ANTIQUATED TYPEWRITERS TO MAKE POOR QUALITY STENCILS THAT RUIN YOUR WORK?
- GET THE NEW SF200 AND MAKE YOUR OWN PHOTO STENCILS*.

If you can make a photo-copy..... you can make a stencil!!

Measures 12"x 8" x 4"
Weighs only 6 lbs.

WITH THE SF200 YOU CAN MAKE A STENCIL WITH ANY IMAGE* YOU DESIRE, USING SAFE, HARMLESS CHEMICALS.

* IMAGE IS LIMITED TO LINE ART ONLY .
RESOLUTION IS LIMITED TO LINE THICKNESS NOT LESS THAN 0.006 INCHES.

RESOLUTION LIMITED TO THIS
ACTUAL CHARACTER SIZE OR LARGER.

Three Easy steps... and you can create a stencil in only 10 minutes.

1. Transfer computer graphics to fotolite paper by a laser or inkjet printer, **or** make a photocopy of your freehand art.
2. Let the SF200 transfer artwork to stencil material.
3. Watch as your stencil develops in the solution.
